

LeCont

Rovereto (TN) – Italy, July 19th 2016

LeCont is glad and proud to announce having established a long term partnership deal with the well-known US organisation WR Motorsport (Miami, Florida) in order to distribute the LeCont kart tyres on the North American market, including USA and Canada.

LeCont want to express in the same time all its gratitude to our friend of DPower Racing, former LeCont importer in the US market, for the excellent work that this Californian organisation did in the recent past in order to establish the brand LeCont in the North America.

More details of the new agreement between LeCont and WR Motorsport will be disclosed later.

The best is yet to come!
